Independent Auditor's Report

To the Board of Directors

Pacific Institute for Research and Evaluation and Affiliates
Calverton, Maryland

Report on the Consolidating Financial Statements

We have audited the accompanying consolidating financial statements of Pacific Institute for Research and Evaluation and Affiliates (the "Institute"), which comprise the consolidating statement of financial position as of December 31, 2018, and the related consolidating statements of activities, functional expenses, changes in net assets, and cash flows for the year then ended, and the related notes to the consolidating financial statements.

Management's Responsibility for the Consolidating Financial Statements

Management is responsible for the preparation and fair presentation of these consolidating financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidating financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidating financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidating financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidating financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidating financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidating financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidating financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

Opinion

In our opinion, the consolidating financial statements referred to above present fairly, in all material respects, the individual and consolidated financial positions of Pacific Institute for Research and Evaluation and Affiliates as of December 31, 2018, and the changes in their net assets and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Report on 2017 Summarized Comparative Information

We have previously audited the Institute's 2017 consolidating financial statements, and we expressed an unmodified audit opinion on those audited consolidating financial statements in our report dated April 24, 2018. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2017 is consistent, in all material respects, with the audited consolidating financial statements from which it has been derived.

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidating financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is presented for purposes of additional analysis and is not a required part of the consolidating financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidating financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidating financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidating financial statements or to the consolidating financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidating financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 18, 2019 on our consideration of the Institute's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Institute's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Institute's internal control over financial reporting and compliance.

Notes to Consolidating Financial Statements

1. Summary of Accounting Policies

Organization

Pacific Institute for Research and Evaluation (PIRE) was organized to conduct research, evaluate programs, develop policy and deliver training and technical assistance in the broad area of human service. The primary fields of endeavor to date have been alcohol, drug abuse, HIV, violence prevention, intervention and evaluation (including high risk youth), technical assistance in providing juvenile justice programs and traffic safety.

National Center for the Advancement of Prevention, doing business as HBSA, was organized to provide systems design, consulting and support services in the health and community service areas to other nonprofit organizations and other organizations or individuals working on programs or projects furthering the health and welfare of citizens.

On May 25, 2017, PIRE California, Inc. (PIRE CA) was organized in the State of California primarily to support PIRE's State of California funded research programs and support activities or otherwise benefit the exempt purposes of PIRE.

The three entities are collectively referred to as the Institute in these consolidating financial statements.

Consolidation Policy

The consolidating financial statements include the accounts of PIRE and its affiliates, HBSA and PIRE CA. All significant transactions between the organizations, including all interorganization balances, have been eliminated on consolidation.

Basis of Accounting

The accompanying consolidating financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) and are presented on the accrual basis of accounting.

Cash and Cash Equivalents

For purposes of these consolidating financial statements, the Institute considers cash on hand, deposits in banks and highly liquid debt instruments with an original maturity of three months or less to be cash and cash equivalents. Restricted cash and cash equivalents at December 31, 2018 consist of money market accounts restricted by the donors for various corporate development initiatives of the Institute's Albuquerque and Louisville offices, or to provide general support for the Albuquerque and Louisville offices' general operations, that have not been recovered under grant awards and contracts.

Short-term Investments

Short-term investments consist of corporate bonds invested in securities of short-term duration. Net investment income is reported in the consolidating statements of activities and consists of interest and dividend income, realized and unrealized gains and losses, less external and direct internal investment expenses.

Notes to Consolidating Financial Statements

Receivable on Grants and Contracts

Receivable on grants and contracts consists of amounts due from federal agencies and non-federal sources resulting from allowable expenditures incurred, which have not been recovered from the relevant federal agencies and non-federal sources, as of the end of the year. The allowance method is used to determine the uncollectible amounts, if any. The allowance is based upon prior years' experience and management's analysis of subsequent collections.

Management considers all receivables on grants and contracts to be fully collectible, therefore, no allowance for doubtful accounts has been established. Receivables are written off if reasonable collection efforts prove unsuccessful.

Property and Equipment

Furniture, equipment and leasehold improvement acquisitions are recorded at cost. These assets are depreciated using the straight-line method over their estimated useful lives or the anticipated term of the lease, if shorter, for leasehold improvements.

The Institute capitalizes assets with an original cost of \$5,000 or greater. When assets are sold or otherwise disposed of, the cost and related accumulated depreciation and amortization are removed from the accounts, with any gain or loss reflected in current operations. Expenditures for repairs and maintenance are charged to expense, when incurred.

Investments

Investments consist of corporate bonds held on long-term duration and are reported at fair value. Net investment income is reported in the consolidating statements of activities and consists of interest and dividend income, realized and unrealized gains and losses, less external and direct internal investment expenses.

Investments - Deferred Compensation Plan

Investments in mutual funds associated with the deferred compensation plan are reported at fair value. Investment gains and losses from the mutual funds are recorded directly to the asset account, and the corresponding liability account, for deferred compensation.

Deferred Rent Liability

Deferred rent liability reflects the difference between rent expense, which is recognized on a straight-line basis over the term of the Institute's various leases, and cash payments.

Net Assets

Net Assets Without Donor Restrictions

Net assets without donor restrictions are available for use in general operating purposes and are not subject to donor (or certain grantor) restrictions. From time to time, the Board designates a portion of these net assets for specific purposes which makes them unavailable for use at management's discretion. The Institute did not have board designated net assets as of December 31, 2018.

Notes to Consolidating Financial Statements

Net Assets With Donor Restrictions

Net assets with donor restrictions consist of assets and the related income whose use is limited by donor-imposed, time and/or purpose restrictions.

The Institute reports gifts of cash and other assets as restricted support, if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or the purpose of the restriction is accomplished, the net assets are reclassified as net assets without donor restriction and reported in the consolidating statements of activities as net assets released from restrictions.

At December 31, 2018, these net assets were restricted for various corporate development initiatives of the Institute's Albuquerque and Louisville offices, or to provide general support for the Albuquerque and Louisville offices' general operations, that have not been recovered under grant awards and contracts. These net assets are the result of unsolicited contributions from two organizations, and there were no fundraising expenses incurred related to these contributions.

Revenue Recognition

Grants and contracts revenue is recognized as earned. Funds received under contracts and grants in advance of expenditures being made are deferred until earned. All Institute government grants and contracts are subject to audit by its awarding agencies. Such audits have been performed in the past and did not result in material adjustments to previously reported revenue.

Functional Allocation of Expenses

The costs of providing various programs of the Institute have been summarized on a functional basis in the consolidating statements of activities. The consolidating financial statements report certain categories of expenses that are attributed to more than one program or supporting function of the Institute. Therefore, expenses require allocation on a reasonable basis that is consistently applied. Fringe benefits which includes medical insurance, vacation/sick leave, pension, and payroll taxes, are allocated on the basis of actual time and effort. Occupancy and rent, communications, depreciation and amortization, and relocation expenses are allocated based on a percentage of salaries and wages and fringe benefits.

Use of Estimates

The preparation of consolidating financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of the consolidating financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Financial Instruments and Credit Risk

Financial instruments that potentially subject the Institute to concentrations of credit risk consist principally of cash and investments held at creditworthy financial institutions. By policy, these amounts are kept within limits designed to prevent risks caused by concentration. The Institute has never experienced losses related to these accounts.

Notes to Consolidating Financial Statements

Credit risk with respect to accounts receivable is limited to amounts receivable on grants and contracts for services rendered mainly to the federal government. The Institute has not experienced losses related to these receivables, and therefore, believes the credit risk related to receivables is minimal.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers*, which establishes a comprehensive revenue recognition standard for virtually all industries under U.S. GAAP, including those that previously followed industry-specific guidance. For non-public entities, the new standard is effective for annual periods beginning after December 15, 2017. In August 2015, FASB issued ASU 2015-14, *Revenue from Contracts with Customers: Deferral of the Effective Date*, which defers the effective date of the new revenue accounting standard to fiscal years beginning after December 15, 2018. In December 2016, FASB issued ASU 2016-20, *Technical Corrections and Improvements to Topic 606*, *Revenue from Contracts with Customers*, which amends the new revenue standard. The amendments do not alter the core principle of the standard, but clarify certain narrow aspects of the standard including contract cost accounting, disclosures, illustrative examples, and other matters. The effective date and transition requirements for ASU 2016-20 are the same as the effective date and transition requirements of Topic 606 which is fiscal years beginning after December 15, 2018. Management is currently evaluating the impact this update will have on the consolidating financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases* (Topic 842), which is the leasing standard for both lessees and lessors. Under this update, a lessee will recognize lease assets and liabilities on the statement of financial position for all arrangements with terms longer than 12 months. Lessor accounting remains largely consistent with existing U.S. GAAP. This ASU is effective for the Institute's consolidating financial statements for the year ending December 31, 2020. Early adoption is permitted. Management is currently evaluating the impact this update will have on the consolidating financial statements.

In August 2018, the FASB issued ASU 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement. The update modifies certain disclosure requirements in Topic 820, Fair Value Measurement. The ASU is effective for the Institute's consolidating financial statements for fiscal years beginning after December 15, 2019. The Institute is currently evaluating the impact of this ASU on the consolidating financial statements.

Accounting Pronouncements Adopted

In August 2016, the FASB issued ASU 2016-14, *Not-for-Profit Entities* (Topic 958) - *Presentation of Financial Statements of Not-for-Profit Entities*. This update amends the current reporting model for nonprofit organizations and enhances their required disclosures. The major changes include: (a) requiring the presentation of only two classes of net assets now entitled "net assets without donor restrictions" and "net assets with donor restrictions", (b) modifying the presentation of underwater endowment funds and related disclosures, (c) requiring the use of the placed in service approach to recognize the expirations of restrictions on gifts used to acquire or construct long-lived assets absent explicit donor stipulations otherwise, (d) requiring that all nonprofits present an analysis of expenses by function and nature in either the statement of activities, a separate statement, or in the notes and disclose a summary of the allocation methods used to

Notes to Consolidating Financial Statements

allocate costs, (e) requiring the disclosure of quantitative and qualitative information regarding liquidity and availability of resources, (f) presenting investment return net of external and direct internal investment expenses, and (g) modifying other financial statement reporting requirements and disclosures intended to increase the usefulness of nonprofit financial statements. The Institute adopted ASU 2016-14 and adjusted the presentation of the consolidating financial statements accordingly. There was no effect on net assets reported at December 31, 2017 as a result of adopting ASU 2016-14.

Reclassifications

Certain accounts in the 2017 consolidating financial statements have been reclassified to conform with the 2018 consolidating financial statement presentation, with no effect on the change in net assets, as previously reported.

2. Income Tax Status

PIRE has been granted tax exempt status under Section 501(c)(3) of the Internal Revenue Code (IRC) and by the California Franchise Tax Board. In addition, the Internal Revenue Service (IRS) has determined that the organization is not a private foundation, as defined in Section 509(a) of the IRC. PIRE is licensed to do business in the state of Maryland as a foreign nonprofit corporation. PIRE is also registered with the Registry of Charitable Trusts of the Office of Attorney General of the state of California.

HBSA has been granted tax exempt status under Section 501(c)(3) of the IRC and is licensed to do business as a nonprofit corporation in the state of Maryland. In addition, the IRS has determined that the organization is not a private foundation, as defined in Section 509(a) of the IRC.

PIRE CA has been granted tax exempt status under Section 501(c)(3) of the IRC and is licensed to do business as a nonprofit corporation in the state of California. In addition, the IRS has determined that the organization is a public charity, as defined in Section 509(a)(3) of the IRC.

Under the Accounting Standards Codification (ASC) 740-10, *Accounting for Uncertainty in Income Taxes*, the Institute must recognize the tax benefit associated with tax positions taken for tax return purposes when it is more likely than not that the position will be sustained on examination. The Institute does not believe there are any unrecognized tax benefits that should be recorded.

For the year ended December 31, 2018, there were no interest or penalties recorded or included in the consolidating statements of activities. The Institute is still open to examination by taxing authorities from year 2015 forward.

3. Liquidity and Availability

The Institute maintains a policy of structuring its financial assets to be available as its general expenditures, liabilities, and other obligations come due. To help manage unanticipated liquidity needs, the Institute has a committed line-of-credit of \$1,500,000, which it could draw upon. The Institute did not have an outstanding balance on this line-of-credit as of December 31, 2018.

Notes to Consolidating Financial Statements

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the consolidating statement of financial position date, are comprised of the following at December 31, 2018:

		PIRE		HBSA	PI	RE CA		Total
Cook and cook a wivelents	φ	070 7//	Φ	10 001	ф	10.000	φ	000 7/7
Cash and cash equivalents	>	970,766	>	10,001	\$	10,000	>	990,767
Short-term investments		1,689,371		-		-		1,689,371
Receivables on grants and contracts		2,325,230		885,270		-		3,210,500
Other receivables		40,024		=		=		40,024
								_
	\$	5,025,391	\$	895,271	\$	10,000	\$	5,930,662

As part of the liquidity management plan, the Institute invests cash in excess of daily requirements in short-term investments and money market funds included in cash and cash equivalents.

4. Comparative Financial Information

The consolidating financial statements include certain prior year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with U.S. GAAP. Accordingly, such information should be read in conjunction with the Institute's consolidating financial statements for the year ended December 31, 2017, from which the summarized information was derived.

5. Investments

Investments, at fair value, consist of the following at December 31, 2018:

	PIRE	HBSA		PIRE CA		Total
Corporate bonds Mutual funds - deferred	\$ 6,232,635	\$	-	\$	-	\$ 6,232,635
compensation plan	580,471		-		-	580,471
Less investment - deferred	6,813,106		-		-	6,813,106
compensation plan	580,471		-		-	580,471
Less short-term investments	1,689,371		-		-	1,689,371
Noncurrent investments	\$ 4,543,264	\$	_	\$	-	\$ 4,543,264

Investment gains and losses from mutual funds associated with the deferred compensation plan are recorded directly to the asset account, and the corresponding liability account, for deferred compensation.

Notes to Consolidating Financial Statements

6. Fair Value Measurements

As defined in FASB ASC 820, Fair Value Measurement, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. FASB ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value and maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

Level 1 - Valuation based on quoted prices in active markets for identical assets or liabilities that a reporting entity has the ability to access at the measurement date, and where transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 - Valuation based on inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, that is markets in which there are few transactions, prices are not current, or prices vary substantially over time.

Level 3 - Valuation based on inputs that are unobservable for an asset or liability and shall be used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. This input therefore reflects the Institute's assumptions about what market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

Following is a description of the valuation methodologies used for assets measured at fair value. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Institute believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments - Deferred Compensation Plan

The Institute's investments in CREF are registered investments which are valued based on market quotations or independent pricing services. The CREF fund consists of several investment portfolios which include money market accounts, growth funds, stock funds, global equities funds, social choice funds, and fixed income bond funds.

Investments in TIAA Real Estate Account (TIAA REA) are investments in a pooled separate account of TIAA. The value of the units held in the pooled separate account is based on the market value of the underlying real estate holdings which are valued principally utilizing external appraisals and involve significant judgment.

Notes to Consolidating Financial Statements

Investments in TIAA Traditional Annuity are investments in fixed annuity contracts that are fully and unconditionally guaranteed by TIAA. The contracts, consisting of fixed return contracts, are included in the financial statements at fair value as reported by TIAA. Fair value represents contributions made under the contract, plus earnings less withdrawals and administrative expenses. The fixed annuity contract buys a contractual or guaranteed amount of future benefits. The fixed annuity contract is subject to certain withdrawal limitations.

Level 3 Valuation Process

The TIAA REA is an insurance company separate account of TIAA investing mainly in real estate and real estate-related investments. The TIAA REA's value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The TIAA REA sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources. Unit values are calculated each day and are posted at TIAA's website.

The TIAA Traditional Annuity is reported at contract value. The contract value of the TIAA Traditional Annuity equals the accumulated cash contributions, interest credited to the plan's contracts, and transfers, if any, less any withdrawals and transfers, if any. The TIAA Traditional Annuity is not available for sale or transfer on any securities exchange. Accordingly, transactions in similar investment instruments are not observable. While transactions involving the purchases/sales of individual TIAA Traditional contracts are not observable in a public marketplace, contract value may provide a good approximation of fair value as supported by the following:

- New contributions represent current transactions between willing buyers and sellers as
 prescribed in the relevant generally accepted accounting principles guidance. Participants
 have the option to allocate their contributions between the TIAA Traditional Annuity and a
 number of investment choices for which fair values are readily observable.
- Participants typically allocate contributions between several investment choices and all
 transactions are executed at current market value with the assumption being that
 objective, unbiased transactions regularly occur and participants deem the value of the
 TIAA Traditional Annuity contract to be no less than the participant's accumulation
 balance and that each investment purchase is made at fair value since these purchases are
 not distressed and are conducted between willing buyers and sellers in open market
 conditions where a participant has a variety of investment choices.
- When participants change employers, they oftentimes enroll in a new plan with very similar investment options, including the TIAA Traditional Annuity. Because these transactions continue to occur with continued participant contributions at current stated contract values, the market-observable presumption is that the contract value of current funding represents a good approximation of fair value based on the willingness of the participant to continue to contribute. For each contribution, TIAA continues to record a contractual liability for the current contribution and does not consider such liability to have any embedded gain or loss.

Notes to Consolidating Financial Statements

- Upon a distributable event, the participant surrenders the future accumulation benefits in exchange for a cash payout based on the contract value, demonstrating the contract value can be monetized when a distributable event occurs.
- The crediting rate is supported by the investment performance of a large, diversified portfolio, is correlated with the highest quality debt security yields, and is adjusted for contract liquidity. A twenty-year analysis of crediting rates for TIAA Traditional Annuity contracts suggests a rate of return that is representative of a risk adjusted market rate for this type product; thus application of observed rates would yield a discounted cash flow which approximates contract value.

There were no changes in the valuation techniques used for these funds during the year ended December 31, 2018.

Level 3 Sensitivity of Fair Value Measurements and Changes in Significant Unobservable Inputs

The significant unobservable inputs used in the fair value measurement of the Institute's investments in TIAA REA and TIAA Traditional Annuity are subject to market risks resulting from changes in the market value of its investments.

Other Investments

Investments in corporate bonds are held by an investment manager. The fair market value of these investments is determined based on market quotations or by independent pricing services.

The following table presents the Institute's investments that are measured at fair value on a recurring basis:

	Fair value measurement at reporting date using											
	Qu	oted prices in	Sig	gnificant other	5	Significant		_				
	ac	active markets		observable		other	Balance as of					
	f	for identical		inputs	ur	observable	De	cember 31,				
Description	as	sets (Level 1)		(Level 2)	inp	uts (Level 3)		2018				
Corporate bonds	\$	6,232,635	\$	-	\$	-	\$	6,232,635				
CREF Fund												
Growth		91,914		-		-		91,914

TIAA Real Estate		-		-		3,722		3,722				
TIAA Traditional Annuity		-		=		105,773		105,773				
	•	_	•	_		_	•	_				
	\$	6,703,611	\$	-	\$	109,495	\$	6,813,106				

See Note 5 for the reconciliation of the fair value measurement disclosures of the Institute's investments to the line items in the consolidating statements of financial position.

Notes to Consolidating Financial Statements

The following table summarizes the change in the fair values for Level 3 items for the year ended December 31, 2018:

Fair value measurement at reporting date using

	unobservable inputs (Level 3)											
				TIAA								
			Т	raditional								
	TIAA	Real Estate		Annuity		Total						
Balance, beginning of year	\$	18,574	\$	295,450	\$	314,024						
Net appreciation in fair value		451		4,818		5,269						
Transfers to other investments		(15,303)		(194,495)		(209,798)						
Balance, end of year	\$	3,722	\$	105,773	\$	109,495						

Transfers to other investments are made under the direction of plan participants and not the Institute.

Quantitative information as of December 31, 2018, with respect to assets measured and carried at fair value on a recurring basis with the use of significant unobservable inputs (Level 3) follows:

Description	F	air Value	Principal Valuation Techniques	Unobservable Inputs	Weighted Average
				Values of underlying real estate	
TIAA Real Estate	\$	3,722	Appraisals	holdings/ investments	N/A
That Roal Estato	Ψ	GIVEE	лургизало	Accumulated cash contributions, interest credited and	
TIAA Traditional Annuity	\$	105,773	Contract value	transfers	N/A

7. Property and Equipment

Property and equipment consists of the following at December 31, 2018:

Leasehold improvements	\$ 893,849
Furniture and equipment	1,030,283
	1,924,132
Less: accumulated depreciation and amortization	1,734,418
	\$ 189,714

Depreciation and amortization expense charged to operations was \$82,874 for 2018.

Notes to Consolidating Financial Statements

8. Line-of-Credit

The Institute maintains a revolving line-of-credit with Sandy Spring Bank. Any outstanding principal is due on demand by August 31, 2019, the maturity date. The maximum borrowing amount was \$1,500,000 and no principal was outstanding at December 31, 2018. Interest is calculated at 0.5% over the Sandy Spring Bank Prime Rate. The interest rate was 6.00% at December 31, 2018. The line-of-credit is secured by a perfected first lien security interest in all collateral of the Institute, including all grants and contracts, other accounts receivable, and property and equipment.

The line-of-credit carries certain covenants, which, if not met, would make the loan in default, and due upon demand. At December 31, 2018, the Institute met all covenants.

The Institute also maintains one letter of credit issued by Sandy Spring Bank to a landlord. The amount of the letter of credit is \$65,698. There were no amounts drawn on the letter of credit at December 31, 2018.

9. Commitments and Contingencies

Operating Leases

The Institute leases facilities to conduct its operations under operating lease agreements expiring at various times through July 2023.

The Institute leases space in California, Maryland, Rhode Island, Kentucky, New Mexico and North Carolina. Several of the operating lease commitments provide for increased annual rent, based on increases in real estate taxes and building operating expenses. Occupancy expenses, including month-to-month rentals, were \$1,226,434, for the year ended December 31, 2018.

Additionally, the Institute generates rental income from subleasing office space in its facilities under leases that expire in 2021. Total lease income was \$166,271 for year ended December 31, 2018 and was netted against rental expense in the consolidating statements of activities.

Minimum future lease payments and receipts are as follows:

Year Ending December 31,	Lease Payments	Lease Receipts
2019	\$ 1,069,998 \$	122,961
2020	1,009,291	122,961
2021	761,858	71,727
2022	421,015	-
2023	264,274	
	\$ 3,526,436 \$	317,649

Grants and Contracts Backlog

As of December 31, 2018, the Institute had a backlog of approximately \$47.8 million in grants and contracts to be used in future years.

Notes to Consolidating Financial Statements

10. Description of Program and Supporting Services

Grants and Contracts

Grants and contracts represent the costs of conducting research, evaluating programs, developing policy and delivering training and technical assistance in the area of human service, including safety and health, through federal and non-federal grants and contracts.

Administrative

Administrative expenses include the functions necessary to provide an adequate working environment, maintain competent legal services for program administration and manage the financial and budgetary responsibilities of the Institute.

11. Retirement Plans

Profit Sharing Plan and Trust

In May 2002, the Institute amended and restated the Pacific Institute for Research and Evaluation Employees Supplemental Retirement Plan, a discretionary defined contribution plan. The new plan, Pacific Institute for Research and Evaluation, Inc. Profit Sharing Plan and Trust, is subject to the guidelines of the IRC and ERISA (Employee Retirement Income Security Act of 1974).

Employees classified as full-time employees, who work at least 60 percent of the full time equivalent, are eligible to participate in the Plan. Part-time employees who work in excess of 1,000 hours per year are also eligible to participate in the Plan. It is the intention of the Institute to contribute an amount equal to at least ten percent of an eligible employee's gross compensation, subject to availability of resources.

Retirement expense under the amended and restated Profit-Sharing Plan and Trust for the year ended December 31, 2018 was \$1,138,487.

Deferred Compensation 457(f) Plan

In December 1998, the Institute established a nonqualified deferred compensation plan under §457(f) of the IRC (the 457(f) Plan). Eligibility for the 457(f) Plan is restricted to level 7 and 8 employees of the Institute, who hold jobs at the senior manager and executive management levels. Employees vest in the 457(f) Plan at a rate of 10% for each year of service. Contributions to the 457(f) Plan are made annually, at the discretion of the Board, and are based on performance evaluations. There was no retirement expense under the 457(f) Plan for the year ended December 31, 2018.

Notes to Consolidating Financial Statements

12. Major Sources of Funding

The Institute received a substantial portion of revenues from research and development grants and contracts from the U.S. Department of Health and Human Services. Revenue recognized from this source for 2018 was as follows:

U.S. Department of Health and Human Services	\$ 11,856,052	48%
Other sources	12,676,798	52%
	\$ 24,532,850	100%

13. Subsequent Events

The Institute has evaluated subsequent events through April 18, 2019, which is the date the consolidating financial statements were available to be issued. There were no events noted that required adjustments to, or disclosure in, these consolidating financial statements.

The accompanying notes are an integral part of this schedule.

Notes to the Schedule of Expenditures of Federal Awards For the Year Ended December 31, 2018

1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Pacific Institute for Research and Evaluation and Affiliates (the Institute) under programs of the federal government for the year ended December 31, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (*Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Institute, it is not intended to and does not present the consolidating financial position, changes in net assets or cash flows of the Institute.

2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in Office of Management and Budget (OMB) Circular A-122, Cost Principles for Non-Profit Organizations, or cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through entity or other identifying numbers are presented where available.

3. Indirect Cost Rate

The Institute has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

Independent Auditor's Reports Required by Government Auditing Standards and the Uniform Guidance

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Directors Pacific Institute for Research and Evaluation and Affiliates Calverton, Maryland

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidating financial statements of Pacific Institute for Research and Evaluation and Affiliates (the Institute), which comprise the consolidating statement of financial position as of December 31, 2018, and the related consolidating statements of activities, functional expenses, changes in net assets, and cash flows for the year then ended, and the related notes to the consolidating financial statements, and have issued our report thereon dated April 18, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidating financial statements, we considered the Institute's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidating financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Institute's internal control. Accordingly, we do not express an opinion on the effectiveness of the Institute's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's consolidating financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Institute's consolidating financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of consolidating financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance For Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

To the Board of Directors

Pacific Institute for Research and Evaluation and Affiliates
Calverton, Maryland

Report on Compliance for Each Major Federal Program

We have audited Pacific Institute for Research and Evaluation and Affiliates' (the Institute) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the Institute's major federal program for the year ended December 31, 2018. The Institute's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the Institute's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Institute's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the Institute's compliance.

Opinion on Each Major Federal Program

In our opinion, the Institute complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2018.

Report on Internal Control Over Compliance

Management of the Institute is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Institute's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Institute's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
